DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement filed 2/19/2002 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each cited foreign patent document; each non-patent literature publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. It has been placed in the application file, but the information referred to therein has not been considered.

Oath/Declaration

2. The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because it has not been signed by the inventors.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 2634

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1, 2, 12, 13, 26 are rejected under 35 U.S.C. 102(b) as being anticipated by Sriram.

Claims 1, 12, 26, Sriram discloses a Code Division Multiple Access (CDMA) rake receiver which includes an interrupt generator (col. 2, lines 45-56). The interrupt generator generates task based interrupts which generates interrupts mainly in response to data transfer (col. 6, lines 57-67). Because the interrupts are generated by data tasks and not the data the interrupt rate is independent of the data transfer rate.

Claim 2, 13, inherits the limitations of Claims 1 and 12 respectively. Sriram further discloses symbols passed into the data path and into the DPE and EOL buffers, which are both tasks which generate interrupts (col. 5, lines 25-30, col. 6, lines 61-63).

5. Claims 3-11, 14-23, 27 are objected to as dependent upon a rejected claim, but would be allowable if rewritten in independent form.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Erin M. File whose telephone number is (571)272-6040. If attempts to reach the examiner by telephone are unsuccessful, the examiner's
